 Birthdate: 03/1977

ABOUT ME

Software Engineer offering 24 years in the IT industry with a focus on product design and development.

Extensive knowledge in bigdata over +12 years working on Apache Hadoop and Hadoop EcoSystem for infrastructure to processing and a bigdata storage .

Over 8 years of experience developing mobile applications for iOS and Android with Java, Objective-C and Xamarin platform with Java and C#.

I have an excellent Communication, Teamwork, Planning and Coordination skills. Strong leadership skills, Understanding how and when to implement in various environments. If necessary, I have no problem with hands-on development.

Ability to bridge the technology gap between business users, DBAs and developers.

Full life-cycle experience on large and complex enterprise projects Ability to "think outside the box" and to "see the big picture".

Ability to adapt to change quickly and easily (is flexible). Ability to multitask assignments, Self-motivation. Developer offering 14 years leading cross-functional teams and completing remote projects. Seamlessly manages workload to meet deadlines.

RESUME

- 24+ years' experience in software development and 10+ years professional application development with focus on enterprise application and data architecture, Bigdata with Hadoop. Experience with Bigdata Hadoop Tools, Spark Tools, Machine learning, Data Streaming.
- Since 2008 working on creating a Hadoop cluster. First hadoop cluster installed in the Buscapé group from Hadoop 0.8 sources to run a recommendation system written in Java using MAHOUT.
- Passionate about programming and learning new technologies; High proficiency coding in C#, .NET, Java and Xamarin.
- 8+ years of experience developing Mobile applications Android/iOS with C#/Xamarin, Java and Objective C, swift; publishing apps in Stores of Apple or Android Play store and Android Things.
- 9+ developing and implementing data architecture strategies and standards. Full life-cycle experience on large/complex enterprise projects.
- Strong front-end Web Development experience using HTML5, jQuery, and CSS. Experience with .NET including ASP.NET Web Forms, MVC and Asp.net Core., AJAX, Bootstrap, Knockout.js, RESTful Services, Service Oriented Architecture.
- Design, develop, code, test, and debug complex new software products, or makes significant enhancements to existing software.
- Experience with Automation tests (Unit tests, Integration tests, Xamarin UITest), TDD, BDD.
- Experience with Agile methodologies (XP, Scrum, Kanban)
- Designing, building and implementing stable, high quality, high performance applications.
- Understanding of design patterns and architectural framework, SOLID Principles.
- Experience with Object Oriented Development/Programming (OOD/OOP)

WORK HISTORY

- | | |
|-------------|---|
| 2020-2022 | Data Engenieer Senior at RDStation.com
I work with bigdata team data engineer. Activity Support, improvements and cost reduction with hadoop cluster, support to the team of developers. Maintaining a hadoop cluster with more than 100 Tera Bytes of data. Tools used: Hive, Ranger, Infra-Solr, Sqoop, AirFlow, presto, spark, ambari, etc. Researches new tools for team.
Speaker Microsoft MVP Conference: Case RDStation: Building DataLakes with Hadoop
Oracle BigData Case in 2022: https://www.oracle.com/customers/rd-station/ |
| 2019-2021 | Xamarin time leader and developer
AppTrim - http://trim.app.br/ The tool to help in the care of trees, to meet the demands of registration, control and pruning and removal services.
AppArquidiocese - https://bityli.com/y9lFL - https://bityli.com/gDI3e
Xamarin.Forms application for Catholic church - Google
AppAssinou https://assinou.app
Application created for startup specializing in signing digital contracts.
App CuidaBrasil - github.com/binhara/cuidabrasil - A free application initiative to combat COVID |
| 2018 - 2019 | Xamarin Developer & Android Things
I worked on developing an Android Things system with Xamarin for automation of a device that verified entry and exit of people using: RFI, QRCode, FingerPrint, Camera for American companies Integritas (www.integritas.net) and MCI (www.managementcontrols.com) |
| 2016 - 2018 | Lead Mobile Xamarin Certified Developer
I trained more than 10 teams of developers in Xamarin (TTI, T-System, Unimed, Sebrae, ROKO, PARMA Soft, SENAI, DBMaster, RPInfo, Senar, PREVINORTE, DARUMA, FDE). Xamarin Profile: https://devconnect.xamarin.com/profile/646 |
| 2015 - 2016 | AOSP Architect & Developer and Team Leader - www.beenoculus.com.br
(16 months) Working as an Agile Consultant software platform and interacting with their global hardware provider. Develop a new hardware version and android Operation System. |
| 2014 - 2015 | Software Architect - Seebot - (www.seebot.com.br)
Developing big data to Seebot company. Storing pictures and videos on HDFS, processing images in real time using Hadoop-HIPI, Spark, Kafka, Flume, hive, MLIB. Hadoop video streaming |
| 2011 - 2013 | C# / Mono Developer for Mainframe - Megadata (www.megadata.com.br)
(3 years) Asp.net system migration to Linux on MainFrame, Leader and Coach in Agile. |
| 2010 - 2012 | Research and Development Coordinator - BUSCAPÉ Company (www.buscape.com.br)
Hadoop Cluster system with engine recommendation
(2 years) Consultant and developer in distributed systems and cluster processing and distributed filesystem for Hadoop company Ebehavior BuscaPé Group. Integration of product recommendation system using artificial intelligence algorithms with the Cloudera Hadoop cluster. High performance construction with cluster Hadoop. Learning machines research. Development systems mapreduce. System product recommendation using Hadoop and Mahout was developed this code was the first trial developed as operating test. Source Sample: http://migre.me/uxGD8 . |

EXPERTISE

Proficiency in: Java and C#, Objective-C, JavaScript, HTML, PHP. Developer for Android, iOS and Windows with Android Studio, Eclipse, Visual Studio, Xamarin Studio.

Xamarin.Android, Xamarin.iOS, Xamarin.Forms with MVVM, PRISM, MVVMCROSS Solid, TDD, BDD, Mocks, Unit Tests Ruby, Python, Script shell, Cloud: Amazon, Azure and IBM BlueMix, Oracle Cloud

SO: Linux, Windows, Android, iOS, FreeBSD, Solaris, zVM Database: Oracle, MSSQL, ySQL, PostgreSQL, Realms, SQLite, MongoDB

AWARDS

- **FINEP 2002 Award of Expression Award for Excellence in Innovation** in the product category for the project "Digital Book"

- **Special Tribute to Members of the Society of Information Technology and Telecommunications community provided Paraná in 2001;**
- **Personality Tribute to Brazilian Free Software,** 'Revista do Linux' magazine. Year I, n12 - December 2000 p. 37, 38

COMMUNITY

Maintainer of the portal Xamarin.com.br
Project Mono Brasil (2003) – Creation of Mono Brazil Free software Community
www.monobrasil.com.br

EXPERIENCES WITH PROJECTS

APOLAR - App intended to facilitate and expedite the search of real estate in the real estate market through friendly and intuitive layout. Using Xamarin.Forms, .NET Standard, Prism MVVM, Google play - <https://goo.gl/n9AGzm>, iOS - <https://goo.gl/EES7eX>

SEBRAE-PR - Android and iOS application developed for view management of customer advisors. App built using Xamarin.Forms, PCL, Share Project, PRISM MVVM, Swagger API and Realms as a database.
<https://goo.gl/dVJKHg>

CREA-PR - Consultant specializing in Xamarin for CREA-PR. Activities: training android and iOS, troubleshooting with Xamarin, Build Server for Android Deploy. Several published applications: 1) <http://migre.me/uACOB>, 2) <http://migre.me/uACOR>, 3) <http://migre.me/uACOY>. 4) <http://migre.me/uAC8X>

Granite Phone (2014) – www.granitephone.com

Designing an android secure distribution tool for a data base security company based in Brazil. It is setting up a secure smart phone device for Sikur corporation. That consists of a highly secured customized android system. All data information and applications were encrypted.

EXPERIENCES WITH TECHNOLOGIES

Platform DotNet, 15 years of experience: Windows.Forms, WPF, LINQ, ASP.NET 2.0, AJAX.NET, Silverlight, MVC Asp.NET 1, 2, 3,4 and Core, Monorails, entity framework.

Prism, Unity Container (Dependency Injection and IoC), MSTest (Unit Testing), Moq (Unit Testing Mock Framework), Json.NET.

Xamarin Plataform: Xamarin, Xamarin.Android, Xamarin.iOS, Xamarin.Forms, Mono Plataform, Xamarin TestCloud, HockeyApp, Microsoft Mobile Center, Xamarin Test units

Bigdata Hadoop Tools: Hive, Hbase, flume, sqoop, MapReduce programming (with Java, Pig, Scala, python), Apache Spark, Ambari, zookeeper, kafka. Hadoop distributions like Hadoop-Oracle, Cloudera, HortonWorks with production environment, build a learning machine, image processing with Hadoop-Hipi, real-time streaming processing.

Machine learning: Mahout, Spark MLIB

Amazon cloud: EC2, S3, Redshift, EMR.

Microsoft Azure: BI tools like Microsoft Power Query, Power Pivot with Development AppFabric, WorkerRole, WebRole, HD Insigh, Mapreduce in C#, Hadoop Hortonworks.

Best Practices: SOLID, TDD, BDD, DDD, Unit Tests, Mocks, Extreme Programming, SCRUM, Automated Testing, Pair Programming, TDD, unit test, MVC, MVVM.

Java Platform, 7 years of experience: J2EE, Tomcat, Eclipse, JSP, Servlets, Struts.

Web Developer: HTML5, JavaScript, NodeJS, Twitter Bootstrap, CSS, Apache, NIGX.

Programming Languages: Java, C#, Ruby, PHP, Pascal, Assembler, Java script, shellsript, pig, hive, scala, Objective-C, swift, kotlin.

Tools: TFS, cvs, svn, git, trac, media wiki, dek iwiki, hudson, Redmine, GitHub, Maven.

Operation System: DOS, Win 3.1, Win95, Win98, NT4.0, Win2003, Win7, Win8, Win10 OS/2 2.1, OS / 2 Warp 3.0, Warp Server and Warp 4.0, BSD, Android, iOS, Mac OSX, Unix and Linux (RedHat, Suse, Mandriva, OpenSuse, Ubuntu), Experience building Android Systems with Android Things.

TCP/IP: client and server, HTTP, NFS, FTP, SMTP, pop, smb, apache web server

Servers Database: Oracle, MySQL, MS SQLServer, Postgre SQL., Informix, DB2, Prevalence of Objects in Java and C #, Object Database (DB4O), SQLITE, Realms.

EDUCATION

Technology Master Degree, 2006, UTFPR, Project Management Team on Community of Practice

Data Processing Bachelor's Degree, 2001, ESEEI College Institution

Electronic Technician graduated, 1996, CEFET-PR

LANGUAGE

Portuguese: Fluent, advanced reading; / **Spanish:** intermediate reading, basic speak level skills

Passport visa for US entry – Expiration Date :4/mar/2023

Teacher

Graduate Professor at Positivo University

Module - CrossMobile Xamarin Apps with Xamarin.Forms

Module - Big Data for Social Network Management

Module - Bigdata for IOT, Introduction Apache Hadoop

Module - Real-time processing and machine learning with Apache Spark

EXPERIENCES AS SPEAKER

- Speaker at 16º Latinoware 2019, "The new world of Virtual Reality" <https://bit.ly/2tCB2j7>
- Speaker at Workshop IOT – IEP 09/2016 "BIG DATA & IoT and applications. <https://bit.ly/38soCJn>
- Keynote Speaker at the International Congress Open InterOperability Convention. Quito - April / 2010 – "Interopability with Suse Linux: MoonLight Project" <https://bit.ly/38vuWjt>
- Speaker at DataScience Summit 2018, FIEP e Tecpar | "Virtual Reality and Data Science" <https://bit.ly/38pqWRp>
- Speaker at VI JAI - 10/2016 | "What does facebook do with my photos??? And what does BigData have to do with it???" <https://bit.ly/2RAUhBE>
- Speaker at VI JAI – UNICURITIBA, 10/2016 | "Introduction to Cloud Computing with Amazon AWS" <https://bit.ly/2tCurQY>
- Speaker at Microsoft Teched Brasil 2010, São Paulo | "The Mono Project: .NET Applications for Non-Windows Systems" <https://bit.ly/38vq2D8>
